

Hi, I'm Bevi

The smart water cooler — bringing flavors, fizz, and eco-friendly fun to your workplace.

Small footprint Big impact

With Bevi, your office can eliminate waste from the production, transportation, and disposal of water bottles.

We are Bevi

We provide companies with healthy, refreshing drink choices while also reducing their carbon footprint by eliminating bottles and cans. Each Bevi machine comes with fast and reliable customer service included in the price.

- Unlimited still and sparkling water
- Flavors are no-cal, low-cal, or naturally sweetened
- Environmentally friendly
- Hassle-free (all restocking needs are tracked remotely and done proactively)

How it works

Create a customized drink at your fingertips. Choose between still or sparkling, then pick a flavor or just stick to plain water! (Flavor strength can be adjusted to personal preference.)

Our flavors

Our flavors are low-cal, zero-cal, or naturally sweetened fruit essences, and we never use high fructose corn syrup. We are constantly searching for the best-tasting flavors and are adding more all the time.
